### REVIEW MARKETS: THE AND REAL

conditions, showed no marked change from those prevailing for some time past, and general lassitude was the characteristic. One or two railroad stocks reflected a fair demand, notably the Norfolk and Western Issues and Union Pacific. The Battimore and Ohio stocks were also bought in mederate volume. Yesterday's movement in Leather, from which speculators hoped the market would receive an impulse, dwindled away and profit taking depressed the price. Sugar was advanced in a desultory manner during the early part of the day, but in the afternoon broke over five points from the top level and unsettled the whole market.

the top level and unsettled the whole market.
Covering by the bears in Sugar and the late demand for Union Paclfic stiffened the market again and served to retrieve a part of the declines, making the close firm and the net changes mixed. There was a very marked absorption of new and reorganization bonds, which served as a background to the strength of the whole market for securities. The undertone was unistakably firm and in spite of the very light demand there was no pressure to sell stocks. The further reduction in the Bank of England's private rate of discount and the weekly return of the bank served to confirm confidence in the money outlook. The strength in London on this score and on the hopes engendered by the meagre news from South Africa causes some on the hopes engendered by the meagre news from South Africa causes some reflected strength in the New York Stock market. Reserves continue to accumulate in the New York banks. Time loans are quoted as low as 4½ per cent., and mercantile paper of a high grade is coming into additional demand at 5 per cent. To-day's strong undertone in stocks was emphasized by the good reports received during the day of railroad carnings for the second week in January.

The hardening tendency of sterling exchange is viewed with tranquilliy be-

The hardening tendency of sterling exchange is viewed with tranquillip because the Bank of England has withdrawn its concessions on gold exports, thus raising the gold export point for exchange considerably above that at which gold has recently gone out. The improved demand for bonds is a natural result from the cheapened rates for money and the pressure of capital for productive employment. Business was fairly well distributed and advanced quite uniform. Total sales, par value, 33,255,000.
